

GigPay

EARN TODAY. GROW TOMORROW.

Presented by:
Yash Lele

BRIDGING THE GAP FOR INDIA'S GIG ECONOMY

"A Swiggy rider needs ₹2,000 for a bike repair 3 days before payout. He has no access to formal credit."

Irregular Income

Leads to severe cashflow stress and uncertainty.

No Credit History

Traditional banks reject loans without salary slips.

Emergency Vulnerability

Lack of savings makes even small crises unmanageable.

The Market Reality

Millions

of underserved gig workers in India

Rapid Growth

but zero financial inclusion

**"Digitally Visible,
Financially Invisible"**

EVIDENCE-BASED INSIGHTS FROM THE FIELD

5 In-Depth User Interviews

"I often run out of cash a week before my payout. Borrowing from friends is embarrassing."

"Banks won't give me a loan because I don't have a 'salary' slip. They don't see my work."

Liquidity Crises

Frequent cash shortages occurring 3-7 days before platform payout.

Credit Invisibility

Consistent earnings on platforms are ignored by traditional lenders.

Informal Borrowing

Heavy reliance on high-interest local lenders or social circles.

Emergency Fragility

One bike repair or medical bill can halt earnings for days.

Saving Barriers

Lack of tools tailored for small, irregular daily surpluses.

Trust Gap

Workers feel misunderstood by the current financial system.

GIGPAY: YOUR FINANCIAL COMPANION

Product Vision

Empowering gig workers to manage liquidity and build a sustainable financial future.

Instant Cash Advance

Immediate liquidity to cover emergency expenses before payout.

Gig Score

Building credit visibility using platform earning history and data.

Auto Savings

Automated micro-savings to build a long-term safety net.

AI Assistant

Personalized financial guidance and automated repayment tracking.

SEAMLESS USER EXPERIENCE

Why it works

- ⚡ **Zero Friction:** Automated data fetching.
- 🛡️ **Trust:** Transparent fee structure.
- 📱 **Accessibility:** Designed for low-end devices.

Problem Solved

- ✓ Eliminates wait times for payouts.
- ✓ Removes need for informal borrowing.
- ✓ Builds a formal financial identity.

USER FLOW

— • Empowering Gig Workers. Financially. • —

Hassle-free auto repayments
- Rewards & Referrals**
Earn more with your network

Secure. Simple. Empowering.

GigPay is your partner in every gig, every day.

#EmpoweringGigWorkers

FROM ONBOARDING TO FINANCIAL FREEDOM

01

Sign-up & KYC

Simplified mobile registration with basic identity verification in under 2 minutes.

02

Connect Platform

Securely link Swiggy, Zomato, or Uber accounts to share earning history.

03

AI Gig Score

Our AI analyzes platform data to calculate a real-time creditworthiness score.

04

Instant Funds

Request a cash advance and receive funds in your wallet instantly.

05

Auto-Repay

Repayment is automatically deducted from the next platform payout.

Total Time: < 5 Minutes from Sign-up to Payout

SUSTAINABLE GROWTH AND VALUE CREATION

Revenue Streams

Processing Fees

Small, transparent fees on instant cash advances.

Lending Partnerships

Commissions from NBFCs for lead generation and scoring.

Financial Products

Cross-selling micro-insurance and investment tools.

Growth Strategy

Referral Loop

User → Referral → New User → Reward → More Referrals. High-trust community growth.

Engagement Loop

Consistent use → Higher Gig Score → Better Rates → Increased Loyalty.

Savings Loop

Auto-savings → Financial Safety Net → Higher Retention → Lifetime Value.

CORE PHILOSOPHY

"Aligning platform profitability with user financial health."

CAPTURING THE CORE MARKETS

Launch Cities

Mumbai (Financial Hub)

Pune (Tech & Logistics)

High Density Zones

Target Channels

Swiggy Communities

Uber Driver Groups

Fueling Stations

Influencer Partners

Referral Program

Incentivized Sharing

Community Leaders

Trust-Based Growth

Strategic Focus: Building hyper-local trust within existing gig worker ecosystems to drive organic adoption.

DEFINING AND MEASURING IMPACT

MAU GROWTH

20% MoM

Target monthly expansion of our active user base through community-led growth.

REPAYMENT RATE

>95%

Maintaining high portfolio health through AI-driven eligibility and automated platform deductions.

SAVINGS ADOPTION

>50%

Percentage of users actively utilizing the auto-savings feature to build their safety net.

90-DAY RETENTION

>40%

Long-term user stickiness driven by Gig Score improvements and financial stability.

THE JOURNEY AHEAD

PHASE 1

MVP Launch

- ✓ Cash Advance
- ✓ Gig Score
- ✓ Mumbai & Pune

PHASE 2

Ecosystem

- + Financial Education
- + Micro-Insurance
- + Community Hubs

PHASE 3

Expansion

- ✦ Tier 2 City Rollout
- ✦ Investment Products
- ✦ Lending API

PHASE 4

Scale

- ✦ Global Expansion
- ✦ Full Neo-Bank
- ✦ Gig Economy OS

"From a liquidity tool to the financial operating system for the global gig economy."

INSIGHTS FROM THE PRODUCT JOURNEY

Trust over Features

For gig workers, the reliability and transparency of the service are more critical than complex features. Trust is the foundation of financial inclusion.

UX is Financial Inclusion

Simplifying the interface and reducing friction is as important as the underlying financial logic. A complex UI is a barrier to entry.

Data-Driven Trust

Platform data (earnings, ratings, consistency) can effectively replace traditional credit scores for underserved populations.

Iterative Design

User interviews fundamentally changed our assumptions. Constant feedback loops are essential for building products that solve real pain points.

"Financial inclusion is a UX problem as much as a finance problem."
